

UC San Diego Health

Dear Patient,

Thank you for choosing UC San Diego Health! Our goal is to support you and your family in all of your health needs, while providing the highest quality of care and customer service. As a patient of UC San Diego Health, you have access to our team of dedicated providers and an extensive array of services, including:

Convenient Primary Care

Good health begins with good primary care. We have a network of more than 250 providers across San Diego County who specialize in family, pediatric, geriatric, or internal medicine. To find the right one for you, visit our Find a Provider tool (providers.ucsd.edu) or call **800-926-8273**.

World-Class Specialty Care

As the region's only academic health system, UC San Diego Health offers access to advanced treatments developed by some of the top minds in medicine. And we're working to bring our renowned specialists to your community. Just this fall, we opened a new location in Rancho Bernardo to offer primary care and specialty services. Find all of our locations at health.ucsd.edu/locations.

Walk-In Visits for Urgent and Express Care

Our express care and urgent care centers ensure you get the care you need when you need it most, including evenings and weekends. Walk in or use our online "Save My Spot" feature to hold your place in line.

Pediatric Partners at Rady Children's Hospital

Through our affiliation with Rady Children's Hospital, families have access to nationally recognized pediatric specialists.

Access to Your Provider Through MyUCSDChart

Your health is important around the clock—not just during office hours. That's why UC San Diego Health offers MyUCSDChart, a secure online tool that enables you to communicate with your provider, request prescription renewals, view your medical history, view lab and imaging records, manage your appointments, pay your bills, and even initiate a video visit. Sign up at MyUCSDchart.ucsd.edu.

Health Events and Classes

When it comes to your health, knowledge is power. UC San Diego Health offers informational videos, free expert-led classes, support groups, and health workshops. To learn more, call **858-657-7000** or visit health.ucsd.edu/events.

On behalf of all of our providers and staff, we appreciate that you have entrusted us with your health care needs.

Warm Regards,

Patty Maysent
Chief Executive Officer
UC San Diego Health
